TREASURE HUNT

1. Follow the Blue Trail a short distance until you come to an old dried-up lake, known a Marsh Lake. Walk along the east shore towards the south. Pick five different kinds of wild flowers on the way. Notice a large dead oak tree on the side. Find the logger's marking on the tree. Now go twenty steps northeast by north to a sentinel Oak tree. Present your flowers and then tell what the logging mark was and you will receive further instructions NOTE: At the end of the trail you are to present a Pine knot.

2. Continue along the lake shore south. When you reach the west side, go straight up the hill until you meet an old logging road. Turn left and follow this road south until you reach Stubby's Folly. Present three different leaves of Sassafras, one of which is a left handed mitten. Here you will burn a string.

3. Return to the road and continue Southeast, along it until it leaves the woods. Find the lone Oak tree on the left, about 75 yards East of that road. Give some sweet fern to the person you will meet there and tell him what to use it for.

4. Now go South across the field until you come to the original Burpee Blvd. Turn left on it and go to the Automobile Boulevard. Give the man a twig and leaves from a Black Locust tree.

5. Go North along the Automobile Blvd. until you reach two houses on the left. Here a road turns off to the right. Catch a Grasshopper and present it to the man who is about three hundred yards down the road from the corner.

6. Follow the boulvard to the East. When you get to the corner of Warren Street and Lily Way, Present a leaf of a white Oak. YOU will then receive further instructions.

7. Now the trail becomes hard. Stick close to the others in your patrol. Go North along a road until it ends at a house. Then go through a Dry Marsh on the right in front of you. Find the next station at the edge of the woods across the marsh from the house.

8. The trail is getting harder. Find a path, Which is a old road in the woods on the left. Keep to the left. Follow this for a while until you come to the west side of Little Blue Lake. Report to the Judge at the end of the course.

Camp Mac treasure hunt 2nd period 1933.

Message #1. Go NE from Adirondack in campcraft lot to road. Follow road to left and look for message in ruins of old house on right of road.

Message #2. Go back to road and continue on road past crossroads. Follow path NE across field thru light woods for some distance and look for message in Oak tree which obstructs the path.

Message #3. You are on the Red trail. Continue on trail and look for message in a stump where trail crosses forked road.

Message #4. Take L fork of road E for short distance to faint crossroads Turn L and follow this road in a northerly direction and look for message near large white pine in valley.

Message #5. Continue on path NW down hill, past fallen tree and valley of ferns, coming to field. Go on past lone tamerack tree and take path to the right of row of Aspens. Follow path to creek. Follow creek upstream (R) and find message at old log bridge.

Message #6. Follow faint path starting E and swinging N and look for message at base of large white pine.

Message #7. Continue in a northerly direction past dead fallen forked tree keeping in faint auto ruts and find message in dead log across path.

Message #8. Continue on path in same direction always looking for faint ruts. Find message near clump of dead branches pointing E.

Message #9. Take Compass direction E about 1/8 mile till you come to a lightly travelled road. Follow road R in a SE direction for some distance and find message near forked cross roads.

Message #10. Go S on best travelled road, past faint fork to right. Continue south and look for message in stump near tree bearing markings of Red and Red & Yellow trails.

Message #11. Continue S and follow Red trail markers and look for message at Adirondack along trail. (Red trail)

Message #12. Here we are, boys. Hope you had a good time. Report to Judge. George.

1. Follow Blue Trail to Collin's Field. Turn left and go straight North, cross road and proceed to north shore of Mud Lake. Give some Squaw Wood to the man you will see there and you will get further directions.

2. Go East to Red Trail and then follow it through the woods until it meets a road. Go 15½ yards straight North and get further instructions if you have a grasshopper.

3. Turn back to road and go West on it until you meet the Yellow Trail. If you are wide awake and keep both eyes open you will find the trail easily. Go Northwest on the trail, through a cool, heavy woods. As you leave these woods you meet a road. Here also you will find directions. Pick up a piece of flint and have it handy.
